

WIDE PLANK FLOORING + ANTIQUE BUILDING MATERIALS

DISTRESSED PREFINISHED

CHARCOAL

100% RECLAIMED WALL TREATMENT WITH DISTRESSED COLOR

From the late 19th - 20th centuries, black barns dotted the landscape to promote a famous tobacco company. At the height of the program, about 20,000 barns were marked with this distinct color. Continuing in this tradition, this siding combines the deep textures and historic authenticity of naturally weathered siding with the modern characteristics of a distressed color.

AUTHENTIC BARN SIDING FROM OUR NATION'S PAST.

Reclaimed DesignWorks reclaimed barn siding gives a completely unique look to any interior or exterior wall covering. This authentically recycled lumber is virtually maintenance free and has already stood the test of time having survived 100+ years of harsh weathering in the northeastern part of our nation. Each board is individually inspected and graded to ensure durability, preservation and long life and a variety of finish options assure tasteful pairing with any residential, commercial, or retail project.

BARN SIDING SPECS:

Hand-selected from weathered barns of the American Northeast, each board is individually inspected and graded to ensure durability, preservation and long life.
