DISTINCTIVE ATTRIBUTES

Circular Sawn Walnut wide plank flooring is milled from fully matured logs that are live-sawn through and through using a 60-inch circular saw blade--imparting its rustic saw-mark texture. This Walnut features a rich blend of coffee-colored browns with occasional touches of caramel from its light sapwood. It offers an extraordinarily tight grain pattern, sound knots, natural face and end checking and naturally occuring over/under wood which creates the dynamic authentic old world appearence of this product.
