WOODLAND CUT PLANK WIDE PLANK FLOORING

SAWN HICKORY

TRADITIONALLY MILLED – THE WAY THEY USED TO DO IT

Characterized by a blend of light and dark tones and smooth, robust grain patterns, our traditional Sawn Hickory presents a wood of unparalleled strength and hardness in its most rustic form. Sawn Hickory brings to your home the towering grandeur of the forests that dominate America’s East and Midwest.

DISTINCTIVE ATTRIBUTES

Sawn Hickory wide plank flooring is milled from fully matured logs that are live-sawn through and through using a 60-inch circular saw blade-impairing its rustic saw-mark texture. Sawn Hickory features wide variations in color – from blondes to deep russet tones – and a delicate balance of knots, occasional worm holes, natural face and end checking and naturally occurring over/under wood which creates the dynamic authentic old world appearance of this product. In our opinion, it is the strongest wood commercially available.

FLOORING SPECS:		
PRODUCT TYPE	ENGINEERED PLANK	SOLID PLANK
SPECIES	Hickory	Hickory
GRADE	Live sawn	Live sawn
BOARD WIDTHS	4" to 6" or 4" to 8" Random widths	4" to 6" or 4" to 8" Random widths
BOARD LENGTH	2' & Longer (up to 12') random lengths	2' & Longer (up to 12') random lengths
TEXTURE	Smooth w/ occasional saw marks	Smooth w/ saw marks
PLANK THICKNESS	3/4"	3/4"
WEAR LAYER	4mm Nominal	Standard
PLYWOOD	Multi-Layered Cabinet Grade Plywood	N/A
FINISH OPTION #1	UV Natural Oil	
FINISH OPTION #2	UV Bona Matte Prefinish	
FINISH OPTION #3	UV Bona Satin Prefinish	

*Flooring is milled unfinished at 3/4" and 5/8" thick respectively. Each plank is then sanded to prepare it for the prefinish process which results in a small nominal decrease in thickness.

NOTE: Our products possess unique characteristics and beauty. While our samples provide a close representation of each specie, they are for photo reference only and cannot exactly match the end product.
