PROHIBITION PLANK

100% RECLAIMED

Prohibition Plank is a blend of different parts of Bourbon barrels and features varying colors from dark to light. In general you can expect approximately 40% of the material to come from the inside of the barrel and it will be blackened and charred (can be lightened up after sanding), 40% of the material will come from the outside staves of the barrel which will have iron stains left on them from the metal bands that held the barrel together and 20% of the material will come from the barrel heads which are often covered in stamps, markings, charring and even writing from the distillery and distillers themselves.

Bourbon is the most popular American Whiskey and our Prohibition Plank captures the true essence of this iconic product. By incorporating our Prohibition Plank into your project, you will truly be capturing the essence, beauty and Americana of this great distilled spirit!

FLOORING SPECS:

THICKNESS	5/8" Engineered
FINISH	Bona Matte
BOARD WIDTHS	1-1/2", 2", 2-1/2"
BOARD LENGTHS	8"-30"
