WOOD PLANKS

RECLAIMED CARGO PLANKS (Raw)

100% RECLAIMED

These transit planks tell a unique story all their own and add instant character and appeal to any residential or commercial project.

We have a large supply of reclaimed cargo planks available. These oak planks were used as the original flooring in freight truck beds and were removed when the trailer was decommissioned or salvaged. These planks are beautifully worn from years of use and their size and thickness make them ideal for residential or commercial use as table tops, bar tops, islands, benches, stair treads, shelving and more. Availability and exact sizes vary, so please contact a sales rep for more info on these unique products.

WOOD PLANK SPECS:

SPECIES	Oak
BOARD WIDTHS	12"
