## Antique MAPLE/BEECH

### RECLAIMED FLOORING – VIRGIN TIMBER FROM AGED STRUCTURES

A medium-density hardwood from Northeast Ohio's most common forest community at the time of European settlement, reclaimed maple-beech – with minimal color and grain variations – combines honey and tawny blond hues with hints of pink for a stunning, light-colored floor that will brighten any room in your home.

Our 100-percent reclaimed maple wide plank flooring and timbers hail from old barns in the American East and Midwest, including the beams used to support the structure. Each hand-selected maple hardwood flooring plank displays inherent features that epitomize naturally aged, distressed and weathered wood from some of our nation's oldest forests.

### DISTINCTIVE ATTRIBUTES

Our maple reclaimed wood flooring blends several lighter wood tones with the character of tiny, cat-like scratches, as well as some knots, sound cracking and insect tracks.

#### SOLID FLOORING SPECS:

Our reclaimed flooring is 100% virgin timber taken from old wooden structures such as barns and factory buildings.
