Antique DOUGLAS FIR

RECLAIMED FLOORING – VIRGIN TIMBER FROM AGED STRUCTURES

Valued for its versatility, Douglas fir has been used in a variety of ways, from structural timbers to furniture making. Often characterized by a vertical or straight grain and luscious red-brown tones, Douglas fir reclaimed wood flooring can fit both an upscale or informal motif.

Its durability and medium, uniform texture once made Douglas fir the ideal wide plank flooring for working and living quarters in mission-style homes of the American Southwest, as well as a key element in turn-of-the-century Arts and Crafts (or Craftsman) houses. Our Douglas fir hardwood flooring is normally reclaimed from old factories and warehouses in the form of structural beams, timbers and joists.

DISTINCTIVE ATTRIBUTES

A light, reddish-brown pine, Douglas fir features prominent growth rings and slightly lighter sapwood. Douglas fir wide plank flooring is primarily straight grained; the wood may also contain wavy or spiral grains. Virgin-forest Douglas fir can have very tight growth rings.

SOLID FLOORING SPECS:

Our reclaimed flooring is 100% virgin timber taken from old wooden structures such as barns and factory buildings.

BOARD WIDTHS	3" to 12"
BOARD LENGTH	2' to 12'
PLANK THICKNESS	3/4", 5/8", 1/2" (3/8" & 11/16" available) (5/8" up to 8" only) (3/8", 1/2" up to 6" only)
