

SHOU SUGI BAN

SUPERKÜL

SHOU SUGI BAN – FEATURING KEBONY WOOD

Superkül by Reclaimed DesignWorks features Kebony shou sugi ban specifically designed to create a beautifully charred aesthetic. Superkül can be used for exterior siding.

Kebony shou sugi ban exterior siding is a beautiful wood recommended by leading architects. It is sustainable, durable and requires no maintenance beyond normal cleaning. Kebony's performance has been proven in a variety of applications including decking and cladding.

DISTINCTIVE ATTRIBUTES

Developed in Norway, the Kebony® technology is an environmentally friendly, patented process, which enhances the properties of sustainable softwood with a bio-based liquid. The process permanently modifies the wood cell walls giving Kebony® premium hardwood characteristics and a rich brown color. After exposure to sun and rain the wood develops a natural silver-gray patina.

SUPERKUL SPECS:

Shou Sugi Ban flooring is created using a Japanese wood burning technique to yield a unique texture and appearance.
