

SHOU SUGI BAN

TOKARA

SHOU SUGI BAN – FEATURING CYPRESS WOOD

Tokara by Reclaimed DesignWorks features charred cypress burnt in the Japanese style of shou sugi ban. Tokara can be used for interior or exterior wall cladding and is available in select grade or #2 common grade cypress. Tokara is only suitable for interior applications.

Tokara is carefully charred, misted with water, cooled, brushed and coated with a clear sealer. The top coat sealer is applied prior to shipping. The burning process accentuates the wood grain and creates varying colors when viewed from different angles and in different light.

DISTINCTIVE ATTRIBUTES

Tokara is made with cypress sourced from the Southern United States and can be used for interior wall and ceiling cladding.

TOKARA SPECS:

Shou Sugi Ban flooring is created using a Japanese wood burning technique to yield a unique texture and appearance.
