

Weathered Gray Barn Siding

Sourced primarily from western ranches and agrarian structures, our weathered gray reclaimed barn wood siding consists of reclaimed boards sorted for gray tones that develop when wood ages naturally from direct exposure to sun and moisture. This reclaimed barn wood is a favorite due to its more consistent gray appearance, although it will also contain minimal browns and blacks, occasional lichen and ferrous staining.

BARN SIDING SPECS:

Hand-selected from weathered barns of the American Northeast, each board is individually inspected and graded to ensure durability, preservation and long life.

BOARD WIDTHS	nominal 7"
BOARD LENGTHS	random lengths
